BOARD CERTIFIED PERSONAL INJURY TRIAL LAW
TEXAS BOARD OF LEGAL SPECIALIZATION

1001 MAIN STREET
SUITE 204

January 14, 2010

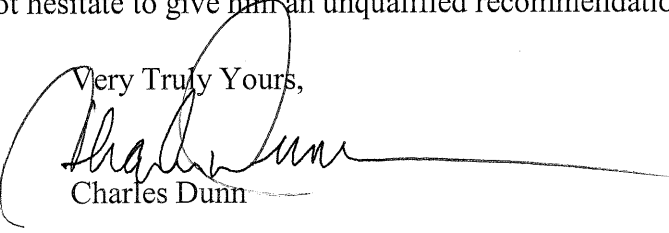

To whom it may concern:

James D. Edwards, D.C., F.I.C.C. served as an expert witness regarding standard of care in a medical malpractice case that I tried. The case was tried as a major jury matter in Amarillo, Texas and consumed one week of actual trial time. A substantial judgment was obtained for my client.

In the preparation of the case and preparation for testimony, Dr. Edwards was extremely efficient and insightful. His review of the plaintiff's medical records was rigorous and he was well prepared for every meeting. During the trial, Dr. Edwards testified for the better part of a day. In direct testimony he presented the plaintiff's case clearly and persuasively. His credibility was not impaired by the lengthy cross-examination of the defense. Based upon the large judgment obtained in the case, it is obvious that the jury was impressed with Dr. Edwards and believed his testimony.

Because of this favorable experience, I would not hesitate to use Dr. Edwards as an expert witness in the future and similarly do not hesitate to give him an unqualified recommendation.

Very Truly Yours,

Charles Dunn
