**To Attorneys Contemplating using Dr. James Edwards as an Expert Witness**

Dr. James Edwards has my highest endorsement as a Chiropractic Expert. I am sure his work on my recent case was instrumental in getting the case settled prior to trial.

I have handled nearly one hundred medical malpractice cases and worked with hundreds of expert witnesses and I found Dr. Edward to be one of the most prompt, thorough and responsive experts I have ever encountered. His knowledge of the complex subject matters involved in my case was superb. Dr. Edward's written reports are well thought out, comprehensive and to the point. In his deposition, he held his ground when needed, but was not overly jealous -- just what you want in an expert witness. Likewise, Dr. Edwards is not afraid to tell you when you are going down the wrong path or just flat wrong. Many experts are difficult to get a hold of and communicate with -- this is definitely not Dr. Edwards. I think every time I emailed him or called him, I got a response that day, and often times within hours of the inquiry.

Dr. Edward's credentials are impeccable. I will not hesitate to use Dr. Edwards again and I highly recommend him to any attorney needing a Chiropractic expert.
